

## PASTING IMAGE USING URL

```
import React from "react";
import "./App.css";

//const a = "Varshith";
//const b = "Nagubandi";

function App() {
  return (
    <div className="varshith">
      <p className="para1">My Name is : Varshith</p>
      
    </div>
  );
}

export default App;
```

My Name is : Varshith

KEEPING PIC WHEN IT IN YOUR LAPTOP

1)KEEP THAT PIC IN **PUBLIC FOLDER**

```
1 import React from "react";
2 import "./App.css";
3
4 //const a = "Varshith";
5 //const b = "Nagubandi";
6
7 function App() {
8   return (
9     <div className="varshith">
10       <p className="para1">My Name is : Varshith</p>
11       
12     </div>
13   );
14 }
15
16 export default App;
```
