

CSS Text Properties

1. Color

The CSS `color` property specifies the color of the text.

```
1 .main-heading {  
2   color: blue;  
3 }  
4 .paragraph {  
5   color: grey;  
6 }
```

Value
blue
grey
lightblue
orange
red

CSS Background Properties

2. Background Color

The CSS `background-color` property specifies the background color of an HTML element.

```
1 .card {  
2   background-color: lightblue;  
3 }
```

```
