How to keep background image for full screen

```
    <style>
        .bgi {
            background-image: url("ocean.jpg");
            height: 100vh;
            background-size: cover;
        }
    </style>
</head>
<body>
    <div class="bgi"></div>
</body>
</html>
```
